

Invitation of the First International *Energy Science and Engineering*

Young Scholars Forum

--- China University of Petroleum (East China)

I、UPC Overview

China University of Petroleum (East China) is located in Qingdao West Coast New Area, which is the ninth state level new zone. It is a national key university directly affiliated to the Ministry of Education and a member of the “211 Project” and “985 Innovation Platform for Preponderant Discipline” universities, which has been listed in national “Double First-Class” University Project.

The university has two disciplines which are selected in the list of national "Double First-Class" Disciplines and rated as A+ disciplines in the fourth round of national discipline assessment: Oil and Natural Gas Engineering, Geological Resources and Geological Engineering. Besides, it has five State-Key Disciplines: Mineral Survey and Exploration, Oil and Gas Well Drilling Engineering, Oil and Gas Field Development Engineering, Chemical Technology, Oil and Gas Storage & Transportation Engineering. Two State-Key Disciplines have been fostered: Earth Detection and Information Technology and Industrial Catalysis. Another four disciplines rank top 1% in ESI: Engineering, Chemistry, Materials Science and Earth Science. UPC covers all disciplines in the field of petroleum and petrochemical industry, among which Petroleum-related disciplines are in the overall level of domestic lead.

UPC has made great efforts to carry out the strategy of strengthening itself by building a talent pool, take mechanism and system reform to foster talented personnel, and constantly

enhance high-level talents and young teaching staff development in recent years. UPC has been mainly to build a high-level innovation team instructed by CAS academicians and led by global experts in the Thousand Talents Plan, leading talents in Ten Thousand Plan-National high-level Special Support Plan, Chang Jiang Scholars, Outstanding Young Scholars in domestic and other talents. An open and inclusive campus where talents are respected and innovation ability is developed will be made in order to improve comprehensive ecological environment for talents development. Thus, a booming talent pool, outstanding young talents and improved overall level have laid solid talents base and provide wide intellectual support for career development. China University of Petroleum (East China) sincerely welcomes all talents to join our university and strive for excellence together in order to achieve the development goal of building a world-class level oil discipline and developing a high-level, research-oriented university with a well-rounded multidisciplinary.

II、 Introduction of the Forum

The aim of International "Energy Science and Engineering" Young Scholars Forum is to build an academic communication platform for outstanding young scholars from home and abroad, organize academic research about international scientific frontier and hot research field , also promote exchanges and cooperation between young scholars, introduce outstanding young talents through academic reports and seminars.

The Forum provides main forum and parallel sessions. The parallel sessions will be on Geosciences, Petroleum Engineering, Chemical Engineering, Mechanical Engineering, Information Science, Renewable Energy and Advanced Materials, Offshore Technology and

Equipment, Economics and Management.

III、 Registration Requirements

At least one of the following requirements should be reached.

1. Under the age of 36; prize-winner of Thousand Talents of Young Scholars, Top Talents of Young Scholars, Chang Jiang Scholars Program-Young Scholars or National Excellent Youth.
2. Under the age of 36; With a doctorate degree from a well-known overseas university, or with a doctorate degree from a well-known university in China with more than 2 years of overseas research experience; Outstanding academic performance in your research field or outstanding young talents with good development potential.

IV、 Registration and Agenda

15/04/2018	Invitation will be sent from then
27/05/2018	Register and check in
28/05/2018	Main forum
28-29/05/2018	Parallel sessions

Please send the application form (available at <http://talent.upc.edu.cn> or see attachment) to talent@upc.edu.cn. Invitees will receive invitation from the organizer and welcome young scholars at home and abroad to sign up actively.

V、 Transport and Accommodation

For invited scholars, after receiving the formal invitation letter, please plan the schedule by yourself and buy economy class ticket. The sponsor will claim the round-trip tickets

(maximum RMB 12000 yuan/person for overseas scholars, maximum 5000 yuan/person for domestic scholars). Boarding and accommodation is complimentary arranged by UPC.

VI、 Contact Information

Office of Talents and Personnel Office, China University of Petroleum (East China)

Person to contact: Jiqing Zhang, Huiping Zhu

Telephone: +86-532-86981882, +86-532-86983027

Email: talent@upc.edu.cn

Website: <http://talent.upc.edu.cn/>

Address: China University of Petroleum (East China), 66 Changjiang Road West,

Huangdao District, Qingdao, Shandong Province, China.
